

EXECUTIVE COMPANY PROFILE

2026

Artem Solutions Limited

Enterprise ICT, Cybersecurity &
Digital Infrastructure Solutions

Helping organisations build secure,
connected and resilient
technology environments.

ABOUT ARTEM SOLUTIONS

1) WHO WE ARE

Artem Solutions Limited is a Zambian-owned enterprise technology company founded in 2019. We help organisations strengthen operations through secure ICT infrastructure, cybersecurity, digital transformation, physical security systems, technology procurement and dependable managed support services.

2) WHAT WE DELIVER

- Strategic technology consulting
- Enterprise ICT infrastructure
- Cybersecurity and data protection
- Physical security and smart access systems
- Technology procurement and licensing
- Managed support and outsourced IT services

3) WHO WE SERVE

Mining, finance, healthcare, education, public sector, energy, commercial and professional services.

We combine technical capability, practical execution and business understanding to deliver solutions that are reliable, scalable and aligned with client priorities.

VISION, MISSION & VALUES

VISION

To be the trusted technology partner enabling secure, resilient and high-performing organisations across Zambia and the region.

MISSION

To deliver practical, intelligent and scalable technology solutions that improve security, efficiency and business performance.

VALUES

-  **Client Focus** We align solutions to real business needs.
-  **Integrity** We act with honesty, transparency and accountability.
-  **Excellence** We pursue quality in execution and service.
-  **Innovation** We embrace smarter ways of solving business challenges.
-  **Collaboration** We work closely with clients and partners to achieve results.

PHYSICAL SECURITY, CONNECTIVITY & PROCUREMENT

1) Physical Security

- CCTV surveillance systems
- Access control and biometric solutions
- Visitor, people and time-attendance management

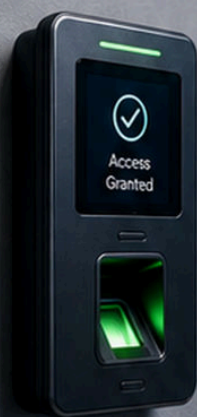

2) Connectivity & Infrastructure

- Switching and wireless networking
- Fiber and structured cabling
- Power protection and supporting infrastructure

3) Procurement & Supply

- Technology sourcing and supply
- Hardware, peripherals and accessories
- Authentic branded supplies and tailored procurement support

From sourcing to deployment, we deliver integrated technology environments with practical execution and dependable support.

Enterprise ICT & Managed Services

We deliver end-to-end ICT services that keep your business connected, secure and performing at its best. Our managed services model combines proactive monitoring, expert support and proven processes to reduce risk and maximise value.

Network design, deployment and support

Reliable, secure and high-performance networks engineered for your business.

End-user support and remote assistance

Fast, friendly and effective support to keep your team productive.

Software licensing, compliance and renewals

Right-size licensing, ensure compliance and simplify renewals.

Wireless, fiber and structured connectivity solutions

High-speed, resilient connectivity built for performance and reliability.

IT consulting, outsourcing and service delivery support

Strategic guidance and flexible engagement models tailored to your goals.

Business Outcomes

Improved uptime

Better productivity

Stronger connectivity

Standardised environments

CYBERSECURITY & DATA PROTECTION

We help organisations strengthen their security posture and protect what matters most—their people, data and operations.

Threat protection

Next-generation firewalls, endpoint security, XDR and email protection.

Monitoring & response

Security visibility, event analysis and incident response support.

Identity & access

Secure authentication, access control and policy-based security.

Risk assessment

Vulnerability assessments and security reviews to identify gaps.

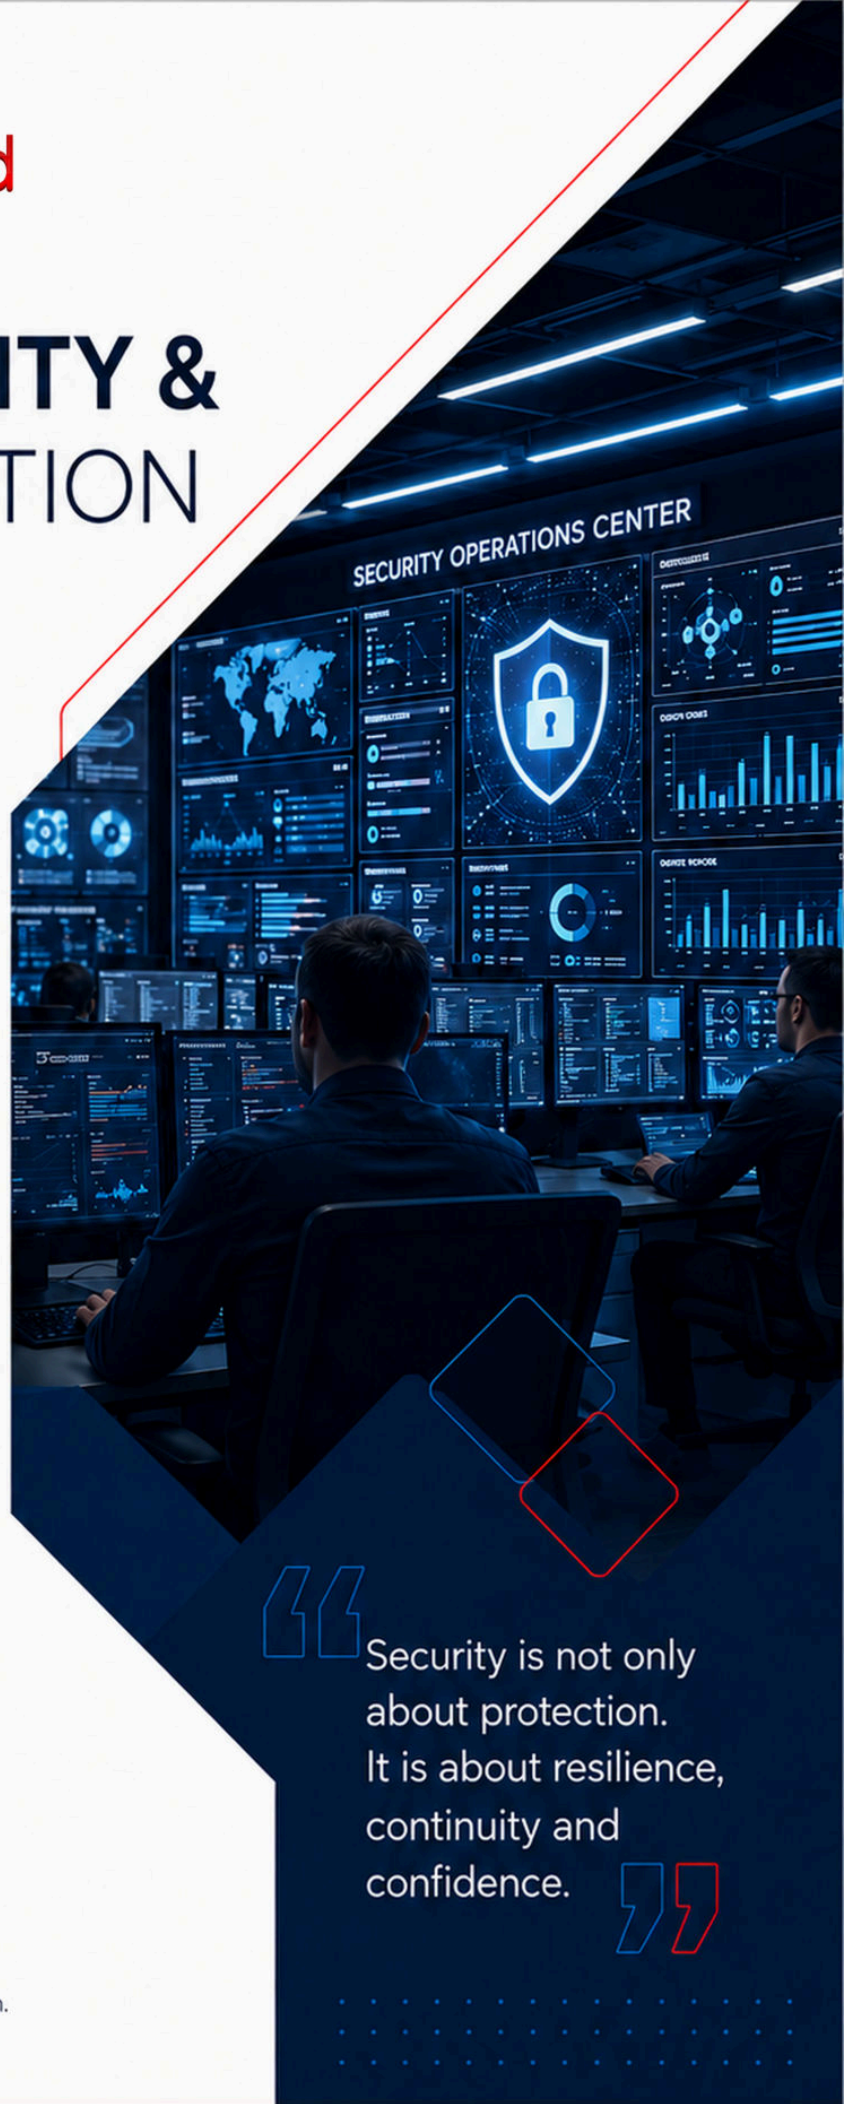

Backup & recovery

Business continuity, backup strategy and disaster recovery support.

Data protection

Encryption, privacy-conscious controls and secure handling of critical information.

“Security is not only about protection. It is about resilience, continuity and confidence.”
